## U.S. EXPORTS OF BEEF BREEDING

### CATTLE, JANUARY-JUNE 1962

Beef breeding cattle exported from the U.S. during the six months, January-June 1962, totaled 5,377 head. This number represents a small decrease from the 5,701 head exported in the corresponding period of the previous year.

Beef cattle exported during this six months period originated from 31 states, with Texas accounting for about 60 percent of the total. Other states contributing significant numbers of animals for export were Arizona, New Mexico, Florida, Montana, California, Kansas, Colorado, Michigan and Wyoming.

The best customer for U.S. beef animals continues to be Mexico. Mexican imports accounted for 63 percent of the sales, followed by Canada with 14 percent, Venezuela 11 percent, Nicaragua 3 percent, and Colombia 2 percent. In total, 23 countries acquired cattle from U.S. beef cattle breeders.

Eleven beef breeds were represented in the January-June 1962 export figures with Herefords again being the most popular. Hereford cattle exports were 47 percent of the total, followed by Brahman with 28 percent, Aberdeen Angus 13 percent, Santa Gertrudis 7 percent, and Charolais 3 percent.

The accompanying tables were compiled from official certificates and test charts made available by the Agricultural Research Service of the USDA. Foreign Agricultural Circular FLM 13-61 shows annual beef cattle export information for calendar year 1961.
